Reference: LG&E Request for Rate Change

Dear Sir,

We have been informed by LG&E that they are requesting changes to their Administrative Charge and the Daily Storage Charge. The Administrative Charge they are proposing is going from \$90 per month to \$230 per month, an increase of **156%**. The Daily Storage Charge they are proposing is going from \$0.1200 to \$0.1833 per mcf, an increase of **53%**.

These changes in rates are outrageous! Their costs for these areas do not justify any changes in the rates for the Louisville market. These increases are to cover their cost outside the Louisville market and should not be a burden for EON expanding in other areas.

We hope that the Commission will dutifully review LG&E request in light of LG&E's mission to serve their customers.

Sincerely,

Richard D. Scherrer  
Controller
